## OBJECTIVE

Enthusiastic and dedicated computer science student seeking a challenging Web development internship. Eager to leverage my strong foundation in programming, problem-solving skills and passion for designing and developing the frontend of the websites and making it more user interactive and responsive.

## EXPERIENCE

17 Jul 2023 - 13  
Aug 2023

- **Web development intern**  
InternPe  
During the internship period, I got to learn a lot about many concepts by developing and applying my skills on the projects. It was the great experience and a fun to work as a web developer.

## PROJECTS

- **Personal Portfolio Website**  
The personal portfolio website I made by using HTML, CSS and Javascript. The website is also responsive and can run on any device.

## SKILLS

- HTML5
- CSS3
- Javascript
- React.js
- DSA
- Java
- Github

## OTHER SKILLS

- Team Collaboration, Communication Skills, Time Management, Creative and Innovative

## WORKSHOP & CERTIFICATIONS

- Received a certificate in Entrepreneurship and Innovation: Web development Virtual Experience Program from Morten Bay.
- Received a certificate in 'Work Ready Skills Virtual Experience Program' from GradConnection and dbi.
